YCAT Vanpool Program Ouick Facts

Yuma County Area Transit's Vanpool Program

What is a qualifying vanpool?

A qualifying vanpool consists of 7 to 15 employees who live or work in Yuma County and commute in a van to an employer work site as a primary mode of transportation. Each employee must use the vanpool at least 3 times a week to qualify for a monthly subsidy. If the number of riders drops below 7 at any time, the subsidy will not be available until the vanpool has 7 riders again.

How do I qualify for a vanpool?

Employees qualify by working for a an employer, riding in the vanpool at least 3 days per week, completing required paperwork with Enterprise Rideshare or vRide (which provides the van), providing one-way mileage for the home-to-work commute and registering with YCAT RideShare commuter matching program.

How much does a vanpool cost?

Monthly costs are determined by the size of the van, miles driven, fuel costs, number of riders and any subsidy provided by an employer. Employer subsidies help reduce overall costs of the vanpool. Riders pay fuel and other costs not covered by YCIPTA and employer subsidies. See reverse side for fares.

Who pays for the vanpool?

Monthly costs are divided among the van's riders and are paid one month in advance. The driver or a designated rider is responsible for collecting the money and submits the money and a monthly rider report to Enterprise Rideshare or vRide.

Who provides the vans?

Enterprise Rideshare or vRide provides the van to rent on a monthly basis through a contract agreement that all riders sign. Enterprise Rideshare or vRide provides the vans, along with a scheduled maintenance program, full insurance and a substitute van when needed during normal business hours. Enterprise Rideshare or vRide offers a 24-hour Roadside Assistance Program for after-hours and weekend emergencies.

Who drives the van?

Drivers must be at least 25 years of age, have a valid driver's license and a reasonably clean driving record. Vanpools must have a main driver, one alternate driver and must complete all required paperwork. Drivers may be allowed to take the vehicle home to use on weekends and after hours. Drivers receive a personal mileage allowance up to 250 miles per month at no additional cost, excluding fuel.

What happens in case of an emergency?

YCIPTA offers a guaranteed ride home program for employees to use in case of a family or medical emergency. The program allows free taxi service up to four times per year. Call 928-783-2235 or visit www.ycat.az.gov for details. Enterprise Rideshare or vRide also provides a guaranteed ride home program that can be set up in conjunction with the vanpool contract.
